PROFESSIONAL EXPERIENCE

Software Engineer — Dial ERP Technology Limited Nov 2024 – Present
Gurgaon, Haryana

- Develop and maintain enterprise CRM/ERP modules with Angular, ASP.NET Core Web API (C#) and MongoDB.
- Designed and built **40+ RESTful APIs** and a library of reusable **Angular Material** components.
- Integrated the **Meta WhatsApp Cloud API** end to end, covering template messaging, media handling, webhooks and bulk messaging.
- Implemented AI chatbot capabilities using **Azure OpenAI** and **Azure AI Search**.
- Provide production support, including issue resolution, bug fixing and performance optimization.
- Collaborate in Agile sprints with peer code reviews and Git-based version control.

Flutter Full Stack Developer Intern — Hunarship Jul 2024 – Oct 2024
Jodhpur, Rajasthan

- Developed Flutter mobile applications integrated with **Firebase** and **Laravel** back-end services.
- Designed responsive mobile user interfaces and integrated RESTful APIs.

EDUCATION

Master of Computer Applications (MCA) — MBM University, Jodhpur 2024 · 84%
Bachelor of Computer Applications (BCA) — Lucky Institute of Professional Studies, Jodhpur 75%

KEY ACHIEVEMENTS

- Built an AI-powered CRM and WhatsApp automation platform (Angular, ASP.NET Core, C#, MongoDB).
- Integrated Azure OpenAI to deliver AI-powered features within the CRM.
- Developed **Geo Tracker**, a field-sales tracking application with real-time Google Maps integration.
- Delivered multiple production-ready enterprise application modules.
- Designed, built and deployed a personal portfolio website on Zoho Catalyst — pankaj.2026.co.in
